Find out About Guildford in our new, digital magazine

We have launched a new, digital magazine for our residents.

The quarterly e-newsletter will be full of council and community stories, news, and updates. The stories are about the people who live and work in our borough and focus on some of the most important areas of our work: community, climate change and the transformation of our borough.

We'll also use the newsletter to let you know about all the great events, attractions and exhibitions taking place, along with any important announcements we have to make.

In the latest edition [4], read about the Bike Project from a 'spokes-person', revisit the Guildford Museum, talk to Brian and Len at The Hive, read about accessibility testing and discover how we fit in with Tesla's plan to supercharge Guildford!

Leader of the Council, Cllr Julia McShane says: "I am delighted that we have launched our digital residents' newsletter.

"Each edition we will take you on a journey around our borough, exploring all the positive work happening to support you, our wonderful residents.

"The people featured in the articles, whether our teams here at the council, or residents of Guildford, your neighbours and friends, are at the very heart of the communities we work for. It's a pleasure to bring their stories to you and uncover everything that's going on to make our borough a great place to live.

"We really hope you subscribe and enjoy the read."
